Park Safety: Smoking ban in Burnaby Parks, Trails and Green Spaces.

(Burnaby, BC) – Due to the dry weather and extreme heat that could result in fire hazards, the City of Burnaby advises all park users that there is NO smoking permitted in Burnaby parks, trail and green spaces. “No Smoking – Fire Hazard” signs are being posted in parks and trails throughout the City and the ban will remain in effect until further notice.

In addition, the public is reminded that open fires are prohibited in our parks, except with permit.
